# EAST EUROPEAN ACCESSIONS INDEX

Vol. 7, No. 6

---

THE LIBRARY OF C  
WASHINGTON: 1

The *East European Accessions Index*\* is a monthly record of monographic publications issued after 1944 and periodical publications issued after 1950 which are currently received by the Library of Congress and, as indicated, by other American libraries. Imprints of the following countries as well as publications issued elsewhere in the languages of these countries are included:

Albania	Estonia	Poland
Bulgaria	Hungary	Rumania
Czechoslovakia	Latvia	Yugoslavia
	Lithuania	

Monographic and periodical publications are arranged by country and grouped under 17 general subjects with monographs and periodicals separately alphabetized under each subject. Monographs in series and annual publications are treated as monographs and are included in the list of monographs. Each monograph is listed in the original language or in transliteration--in accordance with the Library of Congress practice--followed by a translation of the title. Each periodical is listed in the original language or in transliteration followed by a descriptive annotation in English including, as available, the name of the issuing body, language statement, frequency of publication, and history note. Periodical receipts are recorded by volume, number, and date. A listing of the contents (in English) is provided for selected periodicals in accordance with their importance and the availability of staff. Unless otherwise indicated, all listed items are represented in the collections of the Library of Congress. Identifying symbols indicate the items available in other libraries. Periodical issues credited to the National Library of Medicine (DNLM) are indexed in its *Current List of Medical Literature*.

A subject index to monographs and periodical contents, with a list of periodical title abbreviations used therein, is provided.

Cumulative lists of East European periodical and newspaper titles received by the Library of Congress and other American libraries are included with the December issue of each volume. The list of periodical titles is maintained by a monthly supplement of newly reported titles, with the supplements appearing during the first half of the year cumulated in the June issue of each volume. Symbols for libraries known to have current files of the periodicals and newspapers follow each title.

Certain forms of material from the East European area, such as textbooks below the university level, juvenilia, and less important pamphlets, are not fully cataloged by the Library of Congress nor are they included in the *Index*; however they are cataloged by the Library in groups arranged by subject and are available for reference use.

The *East European Accessions Index* is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

subscription price, \$10.00 a year domestic, \$12.50 a year foreign.

L. C. Card, 51-60032

\*Volumes 1-6, 1951-1957, issued under title *East European Accessions List*.
